REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance:

Claims 1-14 are considered allowable since the prior art made of record and considered pertinent to the applicant's disclosure does not teach or suggest the claimed limitations. The prior art does not teach the claimed invention of a method of writing a selected memory cell comprising in combinations of other steps: biasing at least one of a group of unselected conductors on the same level as the first conductor to a third voltage between the first and second voltages and at an offset from the second voltage; and biasing at least one of a group of unselected conductors on the same level as the second conductor to a fourth voltage between the first and second voltages and at an offset from the first voltage.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Kramer et al (6291836) and Johnson et al (6185122) disclose a three dimensional array memory device.
